

POLLINATOR'S DELIGHT

FULL SUN

A beacon to bees and butterflies, this planting is what pollinator's all are buzzing about.

Lupine
(*Lupinus perennis*)

Meadow blazing star
(*Liatris ligulistylis*)

Prairie tickseed
(*Coreopsis palmata*)

Prairie alumroot
(*Heuchera richardsonii*)

Pale purple coneflower
(*Echinacea pallida*)

Obedient plant
(*Physostegia virginiana*)

Early sunflower
(*Heliopsis helianthoides*)

Turtlehead (*Chelone glabra*)

White prairie clover
(*Dalea candida*)

Great blue lobelia
(*Lobelia siphilitica*)

Stiff goldenrod
(*Oligoneuron rigidum*)

Swamp milkweed
(*Asclepias incarnata*)

Showy goldenrod
(*Solidago speciosa*)

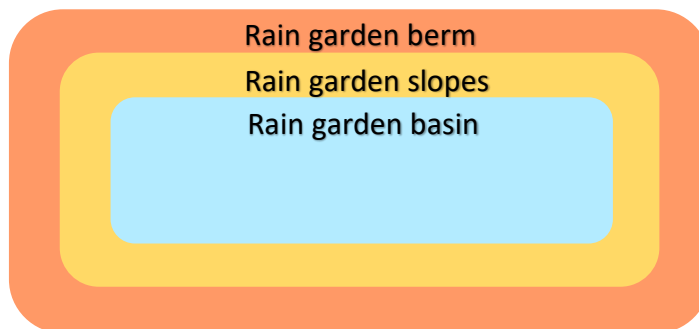

Calico aster
(*Symphyotricum lateriflorum*)

Bebb's oval sedge
(*Carex bebbii*)

Little bluestem
(*Schizachyrium scoparium*)

- Prefers drier soils**
- Prefers wetter soils**
- Tolerates mid-range conditions**

This plan may need to be altered slightly due to the availability of plants from local nurseries.
